J. E. ALLEN, W. C. T.
Mrs. D. D. HANCOCK, W. S.

B. H. BRISTOW,

REPRESENTATIVE TO THE NATION

AN OUTRAGE.

The policy of this journal is so well known that its readers are sure any just retrenchment in either National, State or county affairs, would receive favorable comment and approval. But the action of the House Appropriation Committee show that the Democrats of Congress are too zealous by half. The appropriation they have recommended for the Carson Mint is an insult to the State. The total appropriations of every description for the Carson Mint are \$48,850, against about \$210,000 last year. No appropriations are sanctioned for either Superintendent or Coiner, and the item for wages is reduced to \$20,000. In short, the Committee propose to make the institution merely an assay office. The record of the Carson Mint stands as a bright page in the history of the State and country. No other Government institution can excel it. Its accessibility is an admitted fact by the leading financial heads of the United States, and it has been repeatedly shown that its productive powers for good could be augmented by provision for its enlargement. Yet the wise men of this Committee propose to curtail its usefulness, to prevent it from being of public service, by making it simply an assay office. A thousand times rather let the institution be demolished as an entirety. We hardly know how to account for such action from the Committee. They have no reasonable excuse for thus impairing the institution. If economy be their plan, let them turn their attention to other departments, where retrenchment and reform can easily be made. Let them abstain from voting away the people's money in lavish gifts and subsidies, and there need not be any reduction of the appropriation for the Carson Mint. If political capital is what they desire they will not be gratified, but on the contrary such a move will swell the Republican vote here by thousands. The Committee ought to be able to exercise discretion, and find out just where the pruning knife, if to be applied, will do the most good. They can easily ascertain that it will be best to let our Mint alone.

It is said that James G. Fair visits Washington for the purpose of arranging a contract with the Government to furnish bullion for the proposed increased silver coinage. The proposed financial legislation making silver coin a legal tender to a large amount, is also reported to be one of his mission, and it is rumored that the nature of his business is of still greater importance, but which cannot be given to the public at present.

CINCINNATI papers denounce as a "fool slander" the Washington report that their hotel-keepers are charging exorbitant prices for rooms during the session of the National Republican Convention. They say the report was started by friends of Blaine and Morton, in order to have the convention changed to some other city because there are signs of a powerful local influence in favor of Bristow in Cincinnati.

REDUCTION OF RAILROAD FARES.—The fare from Omaha to New York at present, and return, is \$76; and to Philadelphia and return, \$72. On and after the 15th of April they will be reduced—to New York and return, \$58; Philadelphia and return, \$55. That will be the uniform rate on all connecting roads. The tickets are good for thirty days only.

It is rumored that the Government has condemned the purchase of the entire product of the Consolidated Virginia and California mines for the year, for the purpose of redeeming the fractional currency.

The roads between Austin and Battle Mountain are represented as being in a horrible condition.

A correspondent of the *Butte Sentinel* intimates that the Richmond Company, of that place, have let, or are making arrangements to let, the whole Richmond mine on contract.

A Catholic convent is about to be erected in Carson, the Sisters having purchased the race-track property for the sum of \$9,000.

The County Hospital of Lincoln county is being run with money and provisions furnished by subscriptions of the citizens.

Carson is reported to be very muddy.

Manager Piper says that the building of the New Opera House in Virginia City will shortly be commenced and that it is the intention to make it one of the finest theatre buildings on the Pacific Coast.

Mr. S. A. Tomkins, the old and well-known Virginia City hotel man, will commence rebuilding the International Hotel on the old site on O street, in that city, about the first of next month.

Dayton is the pioneer broom manufacturing town of Nevada.

THE NEW IDRIA MINE.

Amicable Settlement of the Famous McGarraghan Claim—Terms of Settlement, \$1,000,000.

The McGarraghan claim against the New Idria Quicksilver Mine has at last been amicably settled, says the *S. F. Call*, and the famous lawsuit, which has occupied the attention of the Courts for ten of fifteen years, has been stricken from the docket. The basis of settlement, so far as is known, is substantially this: McGarraghan pays the owners of the New Idria mine \$400,000 in cash and giving a lien upon the mine for the \$500,000 or \$600,000 additional, which amount is to be paid as soon as it has been taken out of the mine. In consideration of this agreement, the mine has been turned over to McGarraghan, and it is understood that the work of taking out quicksilver is to be prosecuted with renewed vigor and dispatch. It has been stated also that Benjamin F. Butler, the Massachusetts statesman, has agreed to furnish the money necessary to develop the mine.

This change of ownership it is expected will not materially affect the price of quicksilver, although certain experts are of the opinion that the increased yield of the mine will have a tendency to lower the price of the metal.

The pyrotechnic display at the Centennial promises to be grander than has ever been witnessed in this country. It is asserted by the *Philadelphia Record* that the Mayor of that city has received a letter from an English manufacturing house noted for the superiority of its fireworks, soliciting a contract for an exhibition of their skill at the centennial in this department. The programme suggested is, an illumination extending over an area of two square miles, a series of loud reports high in the air, the ascension of a fleet of magnesium balloons, the scattering of myriads of stars, grand special design, eagles flying to and fro, cascades of fire, and a bouquet of 20,000 large colored rockets, form part of the proposed display. The proposition is being favorably considered, and if the terms are satisfactory, will be accepted.

EXPLANATION OF THE "FLESH-SHOWER" IN KENTUCKY.—A Louisville dispatch dated March 11th says:

In regard to the shower of flesh in Bath county, Professor Smith, the scientist, says in his analysis of specimens examined by him: "In my mind, this matter gives every indication of being the dried spawn of batrachian reptiles, doubtless that of the frog. They have been transported from ponds and swampy grounds by currents of wind, and have ultimately fallen on the spot where they were found."

As to the Presidential outlook, so far as the aspirants and the nomination are concerned, it is more and more a case of quia pro quo. For awhile past, we considered Blaine's chances first on the list on the Republican side, and while he has done nothing to damage his reputation, we somehow feel that Bristow's stock has been rising until we are of the belief that he would average the strongest candidate before the people.—*Lyon Co. Times*.

There are 34,000,000 acres of land in England, exclusive of the city of London, and 30,000,000 acres of this area is owned by 12,000 persons. The aggregate income of 100 of those land owners is \$57,000,000 annually from rentals.

The Leopard pays no dividend this month.

The sum of \$35,000 has been offered for a seat in the old Stock Board.

It is expected that the California mine will pay a dividend within 60 days.

The number of women that dabble in stocks was never so large as now, and appears to be steadily increasing. They can be easily picked out on the street, and their faces and manners are good indications of the market.

The elections of Savage, Hale & Norcross and Chollar are not very far distant now, and there are symptoms of a struggle for control. Probably the use of the Combination shaft enters into the calculations, of the contestants.

The Northern Belle Mining Company have declared a dividend of \$1 per share, amounting to \$50,000, payable on the 15th. This is the tenth dividend declared, and the total is \$500,000.

Dr. Linderman, the Director of the Mint, states, as his opinion, that the production of gold and silver after the 1st of May will be \$7,000,000 per month, of which half will be in gold, and that the fact cannot but have an important bearing on the gold premium.

The Consolidated Virginia mine has now paid dividends for twenty-three consecutive months, and the total amount thus disbursed during the period is \$17,250,000. As the dividends represent only a little over 50 per cent. of the product, it follows that the mine has produced over \$30,000,000 during the interval, or more than was produced by the Bunker and Crown Point mines during the four years they were working out their bonanza.

At the recent annual meeting of the Hale & Norcross Mining Company the old Trustees were re-elected. The income for the past year has come chiefly from assessments, the last one of \$80,000 becoming delinquent on the stock-to-day. The total receipts were \$388,700. Less than 4,100 tons ore was taken from the mine during the year, and there is now on hand at the ore house about 1,000 tons, valued at \$23,800. The upper levels are completely worked out. There is but little quartz in the lower levels south, but good indications north.

THE VETERAN'S MEDAL.

Badges of the Mexican War Battle into Badges of Honor.

Dr. C. B. Zubriske, an old and much respected physician and Mexican War veteran residing in this city, says the *Silver City Mining Reporter* has just received a copy of the Centennial Medal to be presented by the Government to all surviving soldiers of the Mexican War, and has permitted us to inspect it for the benefit of our readers. As no description of these badges of honor has yet appeared in print here, it will be read with interest. These medals are being executed at the U. S. Mint, at Philadelphia, from four bronze cannons, trophies of the victories of the American armies in Mexico, and will be a handsome token of respect to the brave boys who now survive to tell the last generation of the first century of our independence, how they fought and conquered on the bloody fields of the Mexican Republic.

DESCRIPTION OF THE BADGES.

The medal is a modified American shield, the outer rim raised from the general surface, and having thereon the names of the principal battles of the Mexican War—Palo Alto, Buena Vista, Cerro Gordo, Churubusco, San Pascual, Toluca and Vera Cruz. In the left hand upper corner of the shield is a man-of-war, to represent the navy; at the apex of the center, a bursting bomb, in remembrance of the ordinance in the center, small arms—crossed muskets, sabre and pistol, for cavalry and infantry, and in the right hand upper corner a mounted field piece for the artillery. Directly under the group of arms is the word "Mexico," and thereunder a Magnifying glass surrounded by Cactus, emblematical of that Republic. Under this the names of Perry, Scott and Taylor, a castle and the figures "1846"—the date of the war. Surrounding these is a wreath of laurel, and 29 five-pointed stars—the number of States composing the Union at that date of the war. The shield is suspended by red, white and blue ribbon to a massive cross-bar above, upon which the veteran's name is handsomely engraved. As a whole the medal does infinite credit to its designer and forms as handsome a testimonial to patriotism and valor as a soldier could wish.

"Old Ann," the Wisconsin war eagle, is going to the Centennial.

While crossing over the Sierras lately, the writer of this overheard some San Francisco parties, largely interested in the mines of Esmeralda—Columbus particularly—discussing the feasibility and manifold advantages of railroad connections with the Central Pacific at Wadsworth. Upon interviewing them directly upon the subject, we were assured that the sum of \$300,000 could be counted upon for a beginning, and the impression was conveyed that definite measures were on the eve of consummation for commencing the work. Although we have not been over the route from Wadsworth south, as proposed, it is our belief that a railroad could be constructed down to Columbus and beyond, on a grade comparatively cheap.

The advantages of such a road to Lyon county could hardly be over-estimated. It would doubtless traverse the entire length of it, and strike into Esmeralda along one side or the other of Walker Lake, and with the mining, grazing and agricultural interests, even as at present developed, the road could not but pay from the moment of its completion. Of course this would interfere with the talk-of extension of the Virginia and Truckee, to Columbus, from a point between here and Carson—the Mound House for instance.

It is evident, however, that there is a pressing want for more satisfactory communication with the outside world, on the part of the people south of here, and if they can not get it one way soon, they will have it by another, and we consider it our legitimate province to set forth every item of interest in that connection. The more railroads we have, especially if they tend to permanently chosen transportation, and develop the country through which they pass, the better. If capital moreover, is willing to construct them independent of subsidy, let us not grumble about the details of location, but extend them a broad welcome. The day is not far distant when cross connection by rail will be effected on the line hugging the eastern wall of the Sierras, between the Central Pacific and east and west roads on the south. It will be the cheaper and more reliable route to tide water for ores and freight of all kinds. *Lyon Co. Times*.

JAMES GORDON BENNETT of the New York Herald it is said is arranging for a trip to California. A special train will be run, and Bennett will be accompanied by his fiancée and several other ladies and gentlemen. He will visit San Francisco and other points on the Pacific Coast.

NEW TO-DAY.

CONSOLIDATED COPPER MINING CO.—Location of principal place of business, Potosi, Washoe county, Nevada.

Notice is hereby given that at a meeting of the Board of Trustees of said Company held on the 11th day of March, A. D. 1876, an assessment (No. 10) of 25 cents per share, was levied upon the capital stock of the corporation, payable immediately in United States gold coin, to the Secretary, J. H. Collins, at his office in Potosi. Any stock upon which said assessment shall remain unpaid on the 15th day of May, A. D. 1876, will be deemed delinquent and unless payment is made before, will be sold on Tuesday, the 15th day of June, 1876, to pay for the delinquent assessment, together with costs or advertising and expense of sale.

By order of the Board of Trustees. J. H. COLLINS, Sec'y. Potosi, March 14th, 1876.

TO TEACHERS.

ALL TEACHERS DESIRING CERTIFICATE will please meet the County Board of examination in Reno, on Friday, March 31st, at 10 o'clock, A. M. The examination will continue two days. ORVIS HUBB, Co. Supt. mar13-td

Y. & T. BLOCKADED.

Interpretation to Travel—Miles of Snow—Wrath of the Wind—The Efforts to Clear the Road.

The first serious interruption to travel on the Virginia and Truckee Railroad occurred on Sunday and it took until yesterday noon to remove the snow, notwithstanding the herculean exertions of the managers and employes. The fearful wind storm which prevailed in Reno Saturday night and Sunday morning, was as nothing in comparison with the hurricane which visited Washoe Valley. The old residents of that valley say that they have never known its equal. The wind storms in that section are frequent and fearful, but the last one was of unusual violence, and drifted the snow on to the railroad track throughout the entire valley, covering it a depth of from two to five feet. The fall of snow has been large in the valley this winter, almost covering and concealing the fences from view. Imagine a cyclone coming then, and you can form some idea of the obstruction placed in the way of railroad travel. The passenger train which left here on Sunday morning remained at the "front" and Steamboat during the day, but returned to Reno, where it remained until yesterday afternoon. Seventy men were sent out from here yesterday for the purpose of shoveling snow and opening the blockade. A large number of men from Carson were also at that end engaged in like service. The Co. have a snow plow, but such a little thing, that when it made the first "buck" against the snow bank it got "stuck." The passenger train left here at 2 o'clock yesterday afternoon for the purpose of carrying passengers, mail and express to Virginia and to return at its usual time last night. Freight trains are running on time. A strong force of men were retained at the "front" all night to ensure a clear track.

Tickets for St. Patrick's ball can be procured at the postoffice. The two best dancers who attend this ball will receive a nice prize.

OUT ON BAIL.—D. H. Flynn, one of the participants in the late shooting scrape, was last evening released on bail. The sum given was \$2,000.

FOR SALE.—A horse and dray is offered for sale cheap for cash. Inquire of Drannan, at Drannan & Richardson's saloon.

SHOOTING SCRAPE.—It is a long time since Reno has had a "man for breakfast," but we came very near being supplied for Sunday morning. During the night preceding Geo. Hutton, night watchman, and D. H. Flynn, who runs the Capital Restaurant, met in the International saloon, and Flynn began to abuse and denounce Hutton. The latter held a cane in his right hand and would doubtless have used it on Flynn, but before an opportunity was afforded Flynn drew a self-cocking revolver and fired at Hutton, the ball taking effect in the left elbow, slastering the same. It was good for Hutton that he observed Flynn's motions, and threw up his arm as a guard, else his life would have paid the forfeit. After being shot Hutton told Flynn, and asked him to desist. But he did not, and shot at him again, the ball going into the ceiling. Then Hutton hit Flynn's pistol with his cane, bending the guard down, thus making it difficult for Flynn to move his trigger finger. The parties clinched. Hutton dropped his cane and drew his pistol. Each exchanged a couple of shots, but without effect. They amused themselves then with beating each other over the head, and both were severely hurt. About this time outside parties interfered and separated them. Charlie Jones arrested Flynn and conveyed him to the county jail. Hutton was taken to his residence and Dr. Hogan called to attend to his wounds, after which Hogan visited Flynn and cared for him. The difficulty probably had its origin in the fact that Flynn had been arrested and locked up once or twice by Hutton and Frank La Point, and took this occasion to avenge himself for fancied wrongs. He was under the influence of liquor at the time, and only in the evening, and months back, had made threats against both Hutton and La Point. When sober, Flynn always behaves like a gentleman.

ROLL OF HONOR.—The following are the names of the pupils of the Reno Grammar School, neither absent nor tardy during the month ending Feb. 25th: Mollie Grippen, Flora Northrop, Josie Wintermantel, Maud Johnson, Rose Wilcox, Clara Cositt, Ella Bishop, Blanche Leonard, Frances Grippen, Alfred Holmard, E. C. McClellan, Willie Knox, Eddie Coffin.

In scholarship and deportment the following named deserve honorable mention; having reached a standard of 90 per cent.: Mollie Grippen, 91; Flora Northrop, 100; Emma Gibbs, 98; Josie Wintermantel, 100; Rebecca Fredrick, 100; Gertrude Lippman, 98; Carrie Richardson, 90; Maud Johnson, 97; Rose Wilcox, 98; Eddie Coffin, 90; Gordon Rice, 90; E. C. McClellan, 96; Willie Walrod, 93; Wm. Lommon, 96; Willie Marks, 94; W. A. Marsh, 93; Clarence Christman, 93; Willie Smith, 93; Willie Knox, 91.

GAME LAW.—The Act relating to wild game and fish makes it unlawful to kill any of the recognized "game birds" at any time after the first day of April and before the first day of September. So do your shooting this month. After the 1st proximo our markets will be bare of most kinds.

WADSWORTH RAILROAD.—From an article in another place it will be seen that there is a prospect of a railroad being constructed south from Wadsworth to the mining region of Esmeralda county. We would like to see the project put through.

If the specimen copy of the Silver City Mining Reporter is an indication of the good things Harry Norton has in store for his readers in the future we desire to be put down on the subscription list. It's naughty but it's nice.

ASSAULT AND BATTERY.—A colored lodger of Mrs. Beck's became exasperated yesterday and "pasted" the old lady under the jaw. Judge Gilson sent the brute up for thirty days. Served him right.

TO TEACHERS.—All teachers desiring certificates will please meet the County Board of Examination in Reno on Friday, March 31st, at 10 o'clock A. M. The examination will continue two days.

HIS CONDITION.—Geo. Hutton is well cared for by his friends. He rests easy, and bears up under his pain like a man.

ANOTHER SNOW BLOCKADE ON THE CENTRAL PACIFIC—NO PASSENGER TRAINS FROM THE EAST.—The "beautiful snow" still causes considerable trouble on the Central Pacific. When the road is clear to the West it is blockaded at the East and vice versa. No passenger trains have arrived from the East since last Saturday night. The trouble is at Otega, where there is fifteen feet of snow; three "dead" engines; snow plow "stuck;" one engine off the track, and the snow still falling. It is expected that the blockade will be raised sometime to-day, but it may not be for two or three days.

THE PROSPECT.—We confidently look for increased prosperity in business during the coming Spring and Summer, not only in Reno but throughout Western Nevada. The yield of the mines will be unprecedentedly large, thus stimulating and vitalizing every other industry. In Reno a large number of buildings will be erected, among which will be several large and substantial ones of brick and stone. Our Washoe county mines will be fully prospected, and they now have every indication of proving as permanent, rich and valuable as any in the State.

THE WHISKY SWILL TUB OF THE SUSANVILLE FARMER is dead—drunk, as usual, it being his normal condition. And the bad whisky affects his mind; he drinks so much he keeps the glass concealed in the palm of his hand to prevent barkeepers from observing the quantity, and then gulps it down. We have in preparation a biographical sketch of his life, which will in due time be given to the Susanville public.

ARRIVAL OF THE "STEAMER."—Our new steam fire engine arrived on Sunday and will be unloaded and put together as soon as possible. When paraded through the streets we will know whether it is all that is claimed for it. The manufacturers have been profuse in their laudations.

NATIONAL CONVENTION.—Many men are already cropping out who desire to be delegates from this State to the Republican National Convention. Among them are J. H. Rand, R. S. Clapp, J. W. Haines, C. N. Harris, W. S. Wood, Thos. Taylor, Gen. Davis and Wm. Woodburn.

CAUSE FOR ALARM.—A house of ill fame, on the lot in the rear of Commercial Row, caught fire yesterday afternoon, and had it not been discovered and extinguished in time, a general conflagration would have occurred.

CON. FOR ASSESSMENT.—An assessment of twenty-five cents per share has been levied by the Consolidated Poe Mining Company, delinquent in office April 13th. See official notice in our advertising columns.

NICK JON.—Udike has been doing some nice work lately. The latest specimen can be seen at Nick Hamersmith's barber shop. It speaks volumes for that mechanical genius.

THE WHISKY HOG OF THE SUSANVILLE FARMER talks about "family." It would be more credit to him to care for his own than to squander his earnings on his miserable self.

WINDY.—Yesterday was a disagreeable day in that the wind blew fiercely and cold. If it was not those winds the weather would be pleasant enough.

SPECIAL NOTICE.

All parties owing the Reno Lumber Co. are hereby requested to settle their indebtedness on or before the 1st day of April, 1876. The business will still be carried on by the same firm, but upon a CASH BASIS. All orders accompanied with the coin will be promptly attended to.
